

Intel® Storage System RAF1000JSP

Target Applications

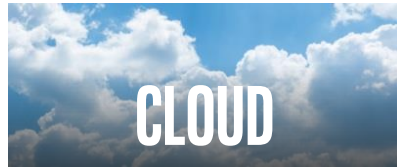

Accelerate transition from spinning media to all-flash SSDs in the warm-tier storage market focused on high-density and high-performing workloads

HPC

High performance
outweighs cost

Financial services
Small to mid-size
supercomputers

CLOUD

Price sensitive,
requires large capacity

Scale-out storage
Cloud service providers

EDGE

High capacity in
limited space

Driver assisted systems
Surveillance
Security/fraud detection

GOVERNMENT

Performance is key
requirement

Military
Federal systems
integrator

DENSITY

PERFORMANCE

TCO
